2027 GovExec Events

Overview

GovExec events are a connection point between government and industry, bringing together the public sector leaders, decision-makers and organizations shaping what comes next. Our programs help industry understand government priorities, market shifts and emerging challenges, and create meaningful opportunities to engage directly with the people driving them. From large-scale thought leadership summits to government-driven programs and high-touch executive exchanges, GovExec creates different ways for public sector players to share insights, explore new ideas and innovations, and work through complex challenges together.

Understand the market. Anticipate what's next. Find your opportunity.

First Quarter Events

Event	Overview	Timing	Audience	Key Topics
Government Works Breakfast Series: Part I	*Citizen Experience in the Age of AI* Explores how AI, data, and emerging tech reshape government service design and delivery.	**January**	**FedTech Leaders**	• AI & Automation • Digital Service & CX • Data Interoperability • Identity & Digital Access
ATARC Super Intelligence Summit: From Development to Deployment	Covers real-world Super Intelligence development, validation, deployment, and agency operations.	**February**	**FedTech, Industry, and Academia**	• SI Testing & Validation • Deployment & Integration • SI Security & Monitoring • Lifecycle Management
Mission Ready Summit: The Technologies Transforming Public Sector	Connects tech leaders and industry partners on modernization, AI, cyber, and workforce.	**March**	**All Federal Government**	• AI & Emerging Tech • Cybersecurity & Resilience • IT Modernization • Workforce & Acquisition
ATARC Cyber Resilience: Securing the Modern Enterprise	Brings together federal technology, cybersecurity, and mission leaders to explore how agencies are strengthening enterprise security while adapting to evolving threats and operational demands.	**March**	**Federal Cybersecurity and IT Leaders**	• Roadmaps • Identity & Device Security • Architecture Integration • Legacy Modernization
Phoenix Challenge - London	Examines AI in info ops, strategic influence, and coalition information advantage.	**March**	**Defense and Intelligence Agencies**	• AI & Info Advantage • Strategic Influence • Coalition Operations • Future Enterprise

Second Quarter Events

Event	Overview	Timing	Audience	Key Topics
Evening of Honors Gala	Celebrates public service teams & leaders, spotlighting innovation and impact across government.	**April**	**Senior Government Leaders and Industry Executives**	• Leadership & Mission Impact • Innovation & Excellence • Tech & Future of Gov
ATARC Workforce Modernization Summit: Talent, Technology & the Future of Public Service	Workforce strategies, skills, and technology shaping public service.	**April**	**Federal HR, Workforce, and IT Leaders**	• Digital Skills & Reskilling • Recruiting & Retention • SI & Human Collaboration
National Labs IT Summit (NLIT)	Collaborative IT innovations in computing, networking, and cyber infrastructure.	**May**	**Cybersecurity personnel at the federal agencies connected to the labs.**	• Cyber & Resilient Infrastructure • High-Performance Computing • Data Security & Governance • SI & Emerging Tech
Government Works Breakfast Series: Part II	*Citizen Experience in the Age of AI* Explores how AI, data, and emerging tech reshape government service design and delivery.	**May**	**FedTech Leaders**	• Agentic AI & Automation • Digital Service & CX/UX • Interoperability & Access
Fort Benning Human Performance Symposium	Optimizing warfighter readiness, health, performance tech, and tactical training.	**May**	**Defense Agencies**	• Human Performance & AI • Human-Machine Integration • Data-Driven Readiness
Defense Summit: Technology, Capability, Mission	Emerging defense tech, strategic investments, and capabilities shaping modern warfare.	**June**	**Defense and Military Leaders**	• AI, Autonomous Systems & Space • Cyber & Electronic Warfare • Supply Chains & Readiness•
Government Procurement Conference (GPC)	Procurement insights, small business engagement, and contracting opportunities.	**June**	**Federal Acquisition and Small Business Owners**	• Acquisition & Procurement Trends • Small Business & Market Access • IT & Technology Teaming
