

This fully online and facilitated program provides the comprehensive detail that leaders need to navigate the changes of government work relative to available technologies and human needs of our society. The leadership coaches facilitating this program will demystify AI with practical, relevant, and immediately actionable use cases, frameworks, and tools for existing and emerging leaders in government. The work of government leaders has never been more challenging. This program addresses the challenge head-on and provides participants with engaging content that will increase confidence to lead with AI for good government – more effective government that secures and advances the human spirit.

### **Module 1: An Introduction To AI**

Exploring AI's history, its technologies, societal impact, and playbook for leaders.

### **Module 2: The Promise & Peril Of AI**

Understanding the opportunities and challenges in an era of AI and digital transformation.

### **Module 3: Your AI Roadmap**

Navigating AI's potential and pitfalls, setting expectations, and measuring stakeholder impact.

### **Module 4: Leading People & AI**

Leading the digital transformation is not just about installing emerging technology; it's about people.

### **Module 5: AI Optimization, Meaning, & Purpose**

Optimizing AI is grounded in ethical awareness, regulatory compliance, customer safety, and workforce impact.

### **Module 6: What's Next – Three Horizons**

Envisioning the future occurs over three horizons that can be used to plan, operationalize, and leverage projects, programs, and progress.

"There is no question that we are experiencing a digital transformation. AI and other emerging technologies are influencing change in our communities, businesses, and government. This Academy provides clarity of what's possible and how to implement the best solutions in the best way - it is a critical NACo TechXchange resource."

- Rita Reynolds, NACo CIO

"We see the AI wave coming. Being prepared is a choice, just as it is a choice to be unprepared. The NACo AI Leadership Academy has been designed to help leaders and their teams be proactively prepared."

- Sybil Gurney, Alameda County Assistant CIO
